

# Cherry RING SIZING GUIDE

**IMPORTANT:** Make sure all scaling options on your printer are turned off and select to print the page at “actual size” on a standard A4 page.

## PAPER SIZER METHOD

Use our paper sizer to get an accurate measurement of someones finger.

1. Cut along the outline of the paper sizer.
2. Make a small slit in the left end of the sizer.
3. Wrap the sizer around the desired finger, with the measurement on the outside.
4. Secure by sliding the pointed end through the slit.
5. Tighten the sizer at the largest part of the finger.
6. Read the measurement to determine the correct ring size.

## CIRCLE CHART METHOD

The circle chart is the best method to use when buying someone a gift. Borrow one of their rings and use this sizing chart to determine their ring size. Make sure it's a ring that will be worn on the same finger.

1. Find an existing ring that fits.
2. Place the ring on the circle chart, matching the **inside diameter** to the nearest size.
3. If the ring falls between two sizes, always choose the larger size.

## IMPORTANT INFORMATION

- Make sure the ring you use to measure is worn on the same finger.
- Consider choosing a ring one size larger than your measurement as your finger swells when hot and should still be easy to slide on and off.
- If you are still unsure, please visit your nearest Cherry Design store for a free no obligation ring sizing.
